

BSR BRITISH SIKH REPORT

The British Sikh Report seeks to identify the needs and wants of the Sikh population in the UK. A report is published each year that forms the basis for engagement with political and community leaders and helps inspire others to help run and create initiatives to cater for Sikhs in Britain.

The BSR aims to:

- Provide high quality and reliable statistics about the lives of Sikhs living in Britain.
- To inform discussion, debate and decision making.
- To support the monitoring of progress and change.
